Tester:	Neeraj Singh
Date:	05 July 2026

Table of Contents

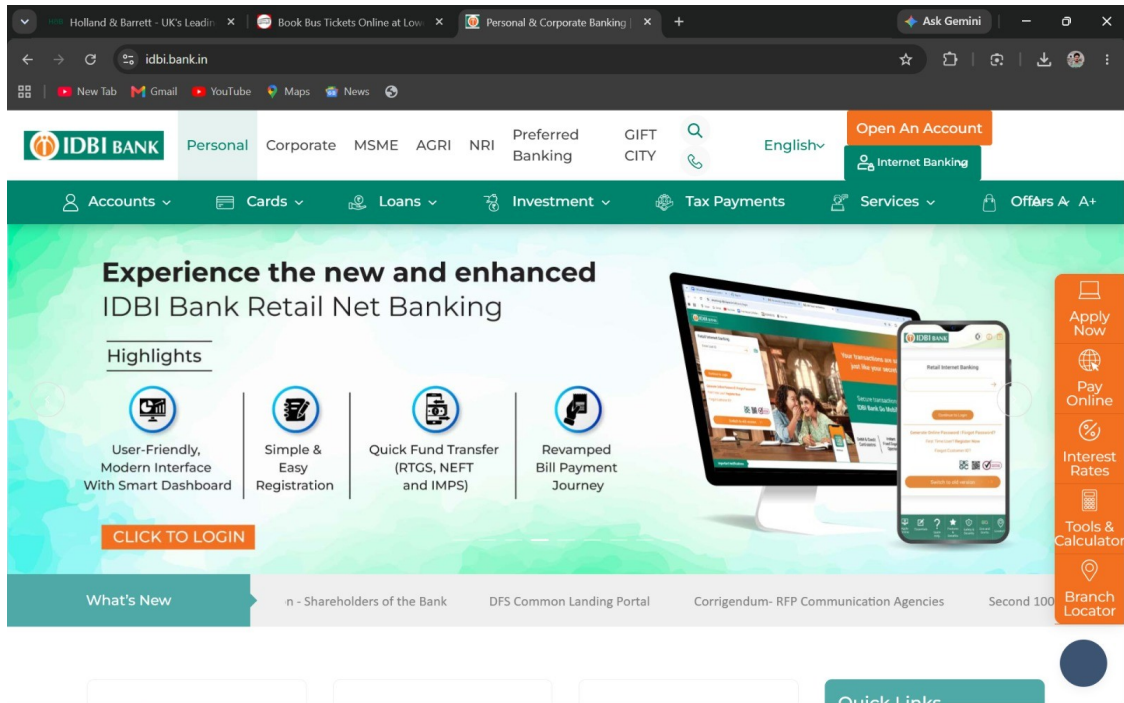

Bug Report 1 - IDBI-BUG-001: Overlapping Header Elements at Zoom	3
Bug Report 2 - IDBI-BUG-002: Background Scrolls Behind Cards Dropdown	5
Bug Report 3 - IDBI-BUG-003: Back Button Unresponsive on Search Page	7
Bug Report 4 - IDBI-BUG-004: OTP Sent to Placeholder Number	9
Bug Report 5 - IDBI-BUG-005: Invalid DOB "00000" Accepted	11
Bug Summary Table	13

Bug Report 1

Overlapping UI elements in header ("Offers" text and Font-Size / A A+ controls) at higher zoom levels.

Bug ID	IDBI-BUG-001
Bug Title	Overlapping UI elements in header ("Offers" text and Font-Size / A A+ controls) at higher zoom levels.
Module	Header / Top Navigation Bar
Severity	Low
Priority	Low
Precondition	User is on the IDBI Bank homepage (idbi.bank.in) at default browser zoom.
Steps to Reproduce	1. Open idbi.bank.in in Chrome. 2. Increase browser zoom level (Ctrl + "+") to 110% or above. 3. Observe the top-right corner of the header, near the "Offers" menu item and the accessibility font-size controls (A / A+).
Expected Result	All header elements should remain properly spaced, aligned, and fully readable/clickable at all standard browser zoom levels.
Actual Result	The "Offers" label and the A / A+ font-size controls overlap each other and become unreadable/unclickable at increased zoom levels.
Status	Open

Bug Report 2

Background page scrolls along with open "Cards" dropdown menu on touchpad scroll.

Bug ID	IDBI-BUG-002
Bug Title	Background page scrolls along with open "Cards" dropdown menu on touchpad scroll.
Module	Navigation Menu - Cards
Severity	Medium
Priority	Medium
Precondition	User is on the IDBI Bank homepage, using a laptop touchpad.
Steps to Reproduce	1. Open idbi.bank.in. 2. Click/hover on the "Cards" menu in the top navigation to open its dropdown (Credit Cards, Debit Cards, etc.). 3. While the dropdown is open, scroll down using the laptop touchpad.
Expected Result	When a navigation dropdown is open, the background page should stay locked (or the dropdown should close cleanly on scroll) so the layout does not break.
Actual Result	The background page scrolls along with the touchpad input even though the Cards dropdown is open, causing the dropdown and background content to misalign.
Status	Open

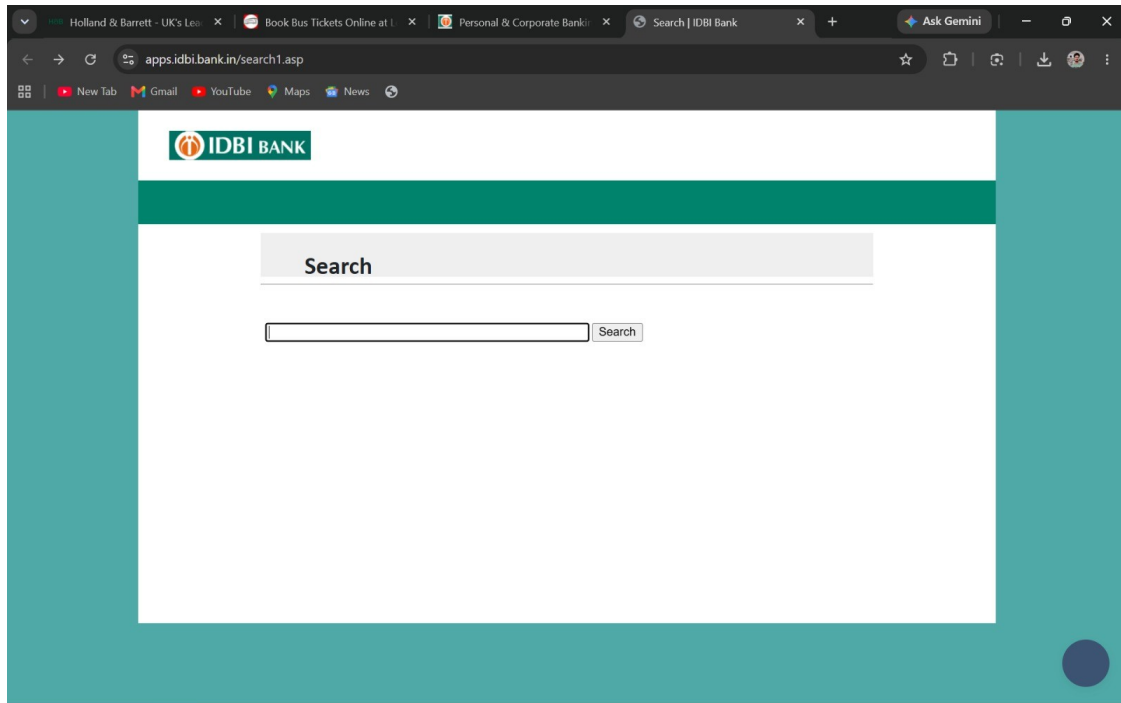

Screenshot Evidence

Bug Report 3

Browser Back button unresponsive after opening the Search page.

Bug ID	IDBI-BUG-003
Bug Title	Browser Back button unresponsive after opening the Search page.
Module	Search
Severity	Medium
Priority	Medium
Precondition	User is on the IDBI Bank homepage.
Steps to Reproduce	1. Open idbi.bank.in. 2. Click the Search (magnifying glass) icon in the top navigation. 3. The Search page opens (apps.idbi.bank.in/search1.asp). 4. Click the browser's Back button to return to the previous page.
Expected Result	Clicking the browser Back button from the Search page should return the user to the page they were on before opening Search.
Actual Result	Clicking the browser Back button does not navigate back to the previously viewed page; the user remains stuck on/near the Search page.
Status	Open

Screenshot Evidence

Bug Report 4

OTP sent to default placeholder number (0000000000) instead of validating a real mobile number.

Bug ID	IDBI-BUG-004
Bug Title	OTP sent to default placeholder number (0000000000) instead of validating a real mobile number.
Module	Help Us Contact You - Non-Customer OTP Verification
Severity	Critical
Priority	Critical
Precondition	User has selected "No" (Non-Customer) on the Help Us Contact You form.
Steps to Reproduce	1. Navigate to idbi.bank.in > Apply Now / "Help Us Contact You" form. 2. Select "No" (Non-Customer) for "Are you an existing IDBI Bank customer?" 3. On the OCRM page (apps.idbi.bank.in/ocrm/pgLeadForNonExstCust.aspx), note the mobile number field is pre-filled with the placeholder value "0000000000". 4. Without replacing it with a real number, click "Resend OTP" / trigger OTP.
Expected Result	The system should validate that a genuine 10-digit mobile number is entered and reject placeholder/default values like "0000000000" before allowing OTP to be sent.
Actual Result	The system allows the OTP flow to proceed with the placeholder value "0000000000" still in the mobile number field.
Status	Open

Bug Report 5

Date of Birth field accepts invalid value "00000" for Existing Customer flow.

Bug ID	IDBI-BUG-005
Bug Title	Date of Birth field accepts invalid value "00000" for Existing Customer flow.
Module	Existing Customer - Date of Birth field
Severity	High
Priority	High
Precondition	User has selected "Yes" (Existing Customer) and entered a Customer ID.
Steps to Reproduce	1. Navigate to the "Help Us Contact You" form. 2. Select "Yes" for "Are you an existing IDBI Bank customer?" 3. Enter a Customer ID. 4. In the Date of Birth field, enter an invalid value such as "00000". 5. Proceed / submit the form.
Expected Result	The Date of Birth field should validate the input format (e.g., DD/MM/YYYY) and reject invalid entries such as "00000".
Actual Result	The Date of Birth field accepts the invalid entry "00000" without showing any validation error.
Status	Open
